

PRIVATE LESSONS

This is a great way to accelerate your learning, master the details that make great artists, and get individual attention and immediate feedback from a professional instructor. It's a great way for beginners to get started and seasoned students to take their skills to the next level.

We accommodate each student's schedule and create a custom payment plan that makes each personal goal affordable. Private lessons are typically of shorter duration (under an hour), and consist of a weekly one-on-one session with an instructor.
